
Bounds On Communication Based On Shannon S Capacity

robust lower bounds for communication and stream computation - robust lower bounds for communication and stream computation amit chakrabarti* dartmouth college ac@cs.dartmouth graham cormode at&t labs-research **robust lower bounds for communication and stream computation** - amit chakrabarti, graham cormode, and andrew mcgregor our results include the first random-partition communication lower bounds for problems including multi-party set disjointness and gap-hamming-distance. **verifying time, memory and communication bounds in systems ...** - 2 it may not be clear whether a particular problem can be solved at all, or, if it can, what computational and communication resources must be devoted **lower bounds on communication complexity** - lower bounds on communication complexity pavol duris* slovak academy of science zvi galil* columbia university tel-aviv university **robust lower bounds for communication and stream computation** - robust lower bounds for communication and stream computation amit chakrabarti graham cormode† andrew mcgregor† april 5, 2011 abstract we study the communication complexity of evaluating functions when the input data is randomly allo- **brief announcement: lower bounds on communication for ...** - brief announcement: lower bounds on communication for sparse cholesky factorization of a model problem laura grigori inria saclay - ile de france **lower bounds in communication complexity: a survey** - abstract we survey lower bounds in communication complexity. our focus is on lowerboundsthatworkbyfirstrepresentingthecommunicationcomplexity measure in euclidean space. **bounds for multihop relayed communications in nakagami-m ...** - in this section, we derive upper bounds for the distributions of the end-to-end snr for the csi-assisted and fixed-gain relay implementations of a multihop communication system. **converse bounds for private communication over quantum ...** - converse bounds for private communication over quantum channels mark m. wilde marco tomamichely mario bertaz january 13, 2017 abstract this paper establishes several converse bounds on the private transmission capabilities of a **communication bounds for heterogeneous architectures** - 1 introduction traditionally, algorithms for dense linear algebra focus on minimizing floating point operations as the key to performance. however, as the gap between interprocessor communication and computation continues **1 delay bounds in communication networks with heavy-tailed ...** - 1 delay bounds in communication networks with heavy-tailed and self-similar traffic jorg liebeherr, almut burchard, florin ciucu” abstract traffic with self-similar and heavy-tailed characteristics has been widely reported in communication networks, **lower bounds for communication in linear algebra - icerm** - lower bounds for communication in linear algebra grey ballard uc berkeley january 9, 2012 research supported by microsoft (award #024263) and intel (award #024894) funding and by **converse bounds for private communication over quantum ...** - converse bounds for private communication over quantum channels mark m. wilde (isu) joint work with mario berta (caltech) and marco tomamichel (juniv. **converse bounds for private communication over quantum ...** - converse bounds for private communication over quantum channels mark m. wilde (isu), marco tomamichel (univ. sydney), and mario berta (caltech) based on arxiv:1602.08898 [wtb16]
